Allowable Subject Matter

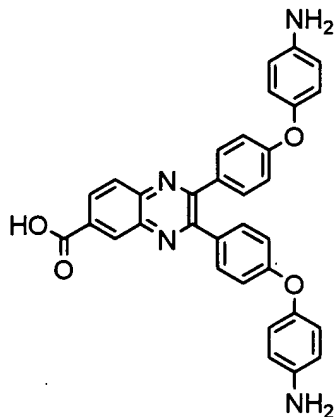

The single claim is allowed.

The following is an examiner's statement of reasons for allowance:

A search of the prior art did not afford any disclosure of, nor any suggestion to make the claimed compound, which has this structure –

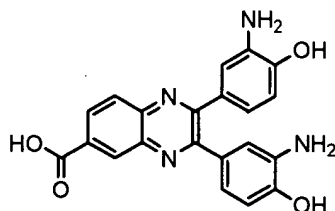

US 6,552,195 (Baek et al '195) discloses a monomer having this structure –

,but does not suggest the claimed compound, only 4-amino substituted phenoxy groups are taught. A 2,3-amino-6-quinoxaline carboxylic acid is also disclosed. The Baek et al '195 patent is not prior art under 35 U.S.C. 102(e) despite being filed before the instant application, because the inventors named in the patent are the same as the instant application.

Art Unit: 1624

Baek et al, "Synthesis and Polymerization of a bis(O-aminophenol)-Carboxylic Acid AB2 Monomer" Polymer Preprints, vol. 42(2), pages 502-503 (2001), as abstracted by CAPLUS, discloses a monomer compound having this structure –

and does not suggest the compound of the invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
